| Type of animal | nimal Features Examples | | | | |
|----------------|--|------------|--|--|--|
| | | • | | | |
| Mammal | Most mammals have live young | Cow | | | |
| | They drink milk from their mothers when they are young | Bear | | | |
| | They have warm blood | Whale | | | |
| | They have fur or hair | Elephant | | | |
| | Many mammals live on land but some, like whales, live in the water | Giraffe | | | |
| Bird | All birds have feathers | Parrot | | | |
| | They lay eggs | Chicken | | | |
| | They have wings | Duck | | | |
| | They have beaks | Blue tit | | | |
| | They are warm blooded | Eagle | | | |
| | They rely on their parents when they are born | | | | |
| Amphibian | They live in land and on water | Frog | | | |
| | They are born with gills but develop lungs | Toad | | | |
| | They are cold blooded | Newt | | | |
| | They lay eggs | | | | |
| | They don't rely on their parents when they are born | | | | |
| Reptile | They usually lay eggs | Snake | | | |
| | They are cold blooded | Crocodile | | | |
| | They have scales | Lizard | | | |
| | They don't rely on their parents when they are born | | | | |
| Fish | They have gills | Shark | | | |
| | They have fins | Salmon | | | |
| | They are usually cold blooded | Tuna | | | |
| | They live in water | | | | |
| Invertebrates | They don't have a back bone | Snail | | | |
| | Insects are a special type of invertebrate called arthropods | Jelly fish | | | |
| | | Spider | | | |
| | | Butterfly | | | |
