

## Maths Newsletter

### Year 4 Times Tables Check

In June, our Year 4s will be completing the Times Tables Check. From this year, administering the test is a statutory requirement and will happen between June 6<sup>th</sup> and June 24<sup>th</sup>. It is an online, individual check. We will be doing lots of prep with your child to make them as fluent and confident in their times tables as possible, but we would really appreciate you complimenting our work in school, by doing some bits at home. Here are a list of great resources you can use with your child online at home:

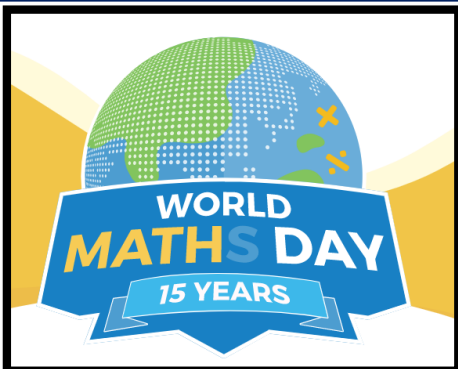

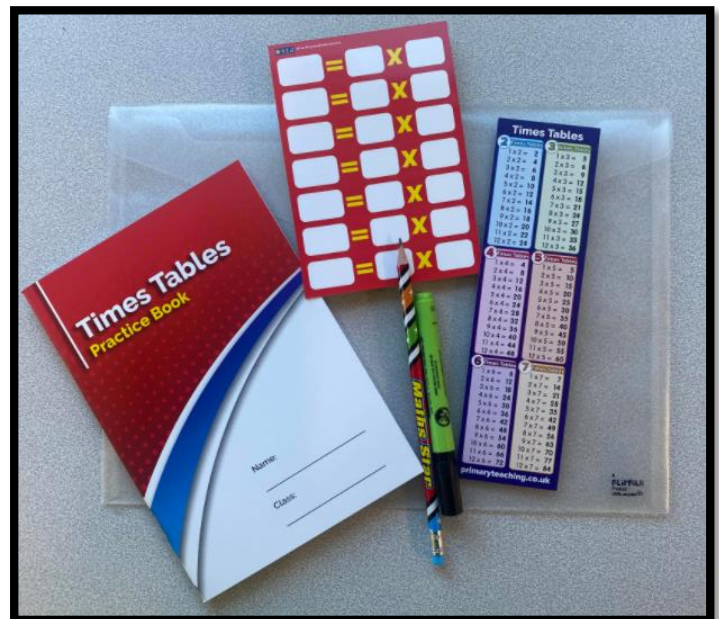

- <https://mathsframe.co.uk/en/resources/resource/477/Multiplication-Tables-Check> - **this is used in class as it is the same layout as the Times Tables Check**
- <https://learnyourtables.uk/>
- <https://www.topmarks.co.uk/maths-games/hit-the-button>

### Year 4 Multiplication Practice Packs

Last week, we sent home some wonderful resources home with your child that can be used for the Times Tables Check.

Here is what is in your child's pack:

- Times Tables Practice Book
- Pencil
- Dry wipe board to write multiplication and division facts on
- A times tables bookmark
- Whiteboard pen
- Times Tables spinner game

### World Maths Day, 2022!

On Wednesday 23<sup>rd</sup> March, it is World Maths Day!

We will be celebrating Maths across all year groups by looking at famous mathematicians, practising our times tables, playing some fun games and seeing how many times we use maths in our day to day life.

### Times Tables RockStars!

Times Tables RockStars is a fantastic resource you can use at home with your child to practice times tables. Please ask your child's teacher for your child's log in details if you do not have it.

## A HUGE thank you!

Thank you to all of our wonderful Year 4 parents who came to our meeting about the Year 4 Times Tables Check. We appreciate you taking the time to come and see us about what we are doing in Year 4 to help your children become confident in their times tables.

We hope you are finding the resource packs useful and we are sure we will see some amazing results in June 😊

## Maskedmatician

Every week, one member of staff from our school will be giving us maths related clues about themselves. It is the job of the children to answer the questions using their mathematical skills to figure out who is behind the math. Here is week 4. Can you figure out who it is?

# Maskedmatician!

Use the mathematical clues to find out which adult is our Maskedmatician!

Week 4  
Who is behind the math?

My age is double 13

I have lived in Liverpool for almost  $\frac{1}{3}$  of my life

I have worked in St Michael's for  $23 + 9 - 28$  years

My height in feet is the square root of 25

The amount of letters the year group I teach in has is the total of  $(5 \times 3) - 6$

The number of letters in my surname is double 2.5

Who am I?
