

School Council Minutes 28th November 2022

1. Present: All

2: Apologies

3: Health and Safety Walk

We inspected the playground and premises to check that everything was safe and nothing needed fixing. We pointed out some leaves that needed clearing and branches by the fence.

Mr Doyle showed us how the playground equipment was assembled and what to check when we were looking to see if it was safe.

4: Health and Safety Book

We are going to leave the book we filled in with Mr Doyle and will use it again in our next health and safety walk to list the things that we notice.

AOB:

We will talk to our classes about the safety walk and tell them they can speak to use about things that they notice on the playground.
